## Reid News

### New look to Reid website

They say "A change is as good as a holiday", and that may be for many, but be assured, Reid is still working just as hard to bring you the best the world has to offer in concrete construction technology and service. Our Reid website forms a large part of how we communicate this to the market, and we are proud to unveil a new look website. ....

### [Fitzgerald Formliners](#)

Reid Australia is proud of its longstanding partnership with Fitzgerald Formliners – a global leader in form liner solutions for tilt up, precast and in-situ applications.

### Prefabricated dome, a century in the making?

Trying to piece together a dome on top of a building is a lot like putting pieces of pie back into a pan: The task starts out relatively easy, but becomes progressively harder as the structure takes shape. "It's not the first piece that bothers you – it's the last one," says John Jamison

### Reid are proud sponsors of the Cement & Concrete Services Seminars

CCS are providers of high quality Engineering training and professional development services. Their courses are held throughout Australia and the training content is held in high regard throughout the industry. Reid are proud sponsors and active participants in the Precast and Tilt-Up seminar where the training given is an essential part of any Engineers training if they are involved in the Precast or Tilt-Up industry.
