

# Anchor Installation

## Setting Bolts

- Secure anchor and void assembly to the sideform with 2 setting bolts.

# Anchor Installation

## Shear Bar and Tension Bar installation

- For JAWS ULTRA and Two Hole Anchor, install Tension Bar and use tie wire to secure into position.

- Install Shear Bar and use tie wire to secure anchor, void, mesh and shear bar into position.

**DO NOT WELD TO ANCHOR**

# Anchor Installation

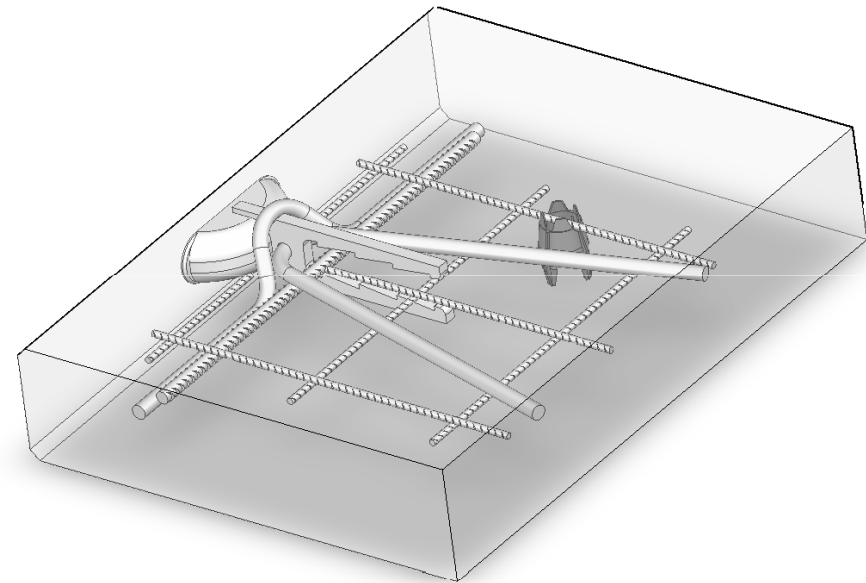

- Tension Bars – used to achieve higher capacity for the JAWS™ ULTRA - if needed.
- Shear Bars – always used to achieve the rated shear capacity of all JAWS™

# Anchor Installation
